
OVERVIEW

APIS is an application that will assist you in entering APIS SSR information into a PNR.

A PNR containing air itinerary segments on APIS participating carriers must be present to use this application.

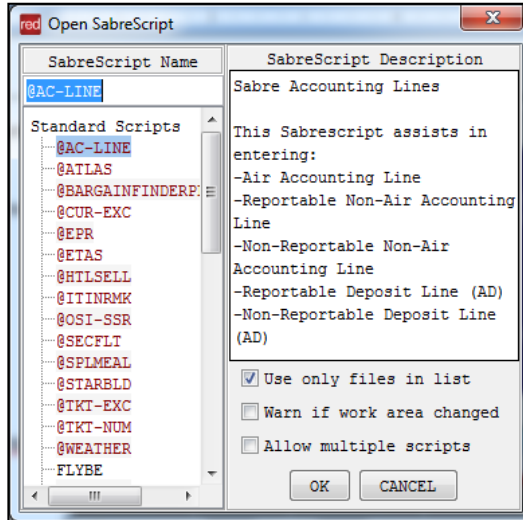

REMARKS: Please check directly with the airline for the type of APIS SSRs that the carries will accept.

TASK**GRAPHIC**

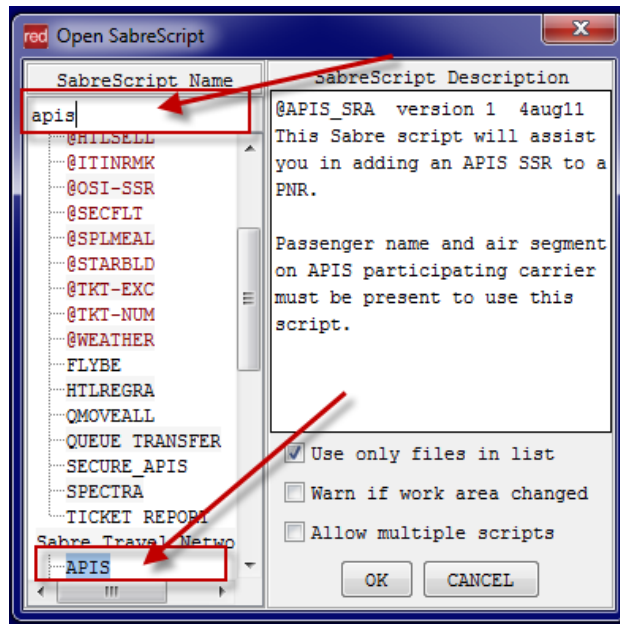

In order to use **APIS**, follow these steps:

Press CTRL + A on your keyboard to open the SabreScript Window

Type the SabreScript Name or use the scroll down bar until you find the script name **APIS**.

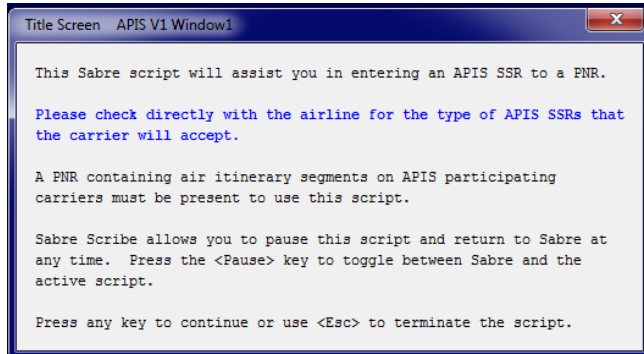

Click **OK** to launch it.

TASK

GRAPHIC

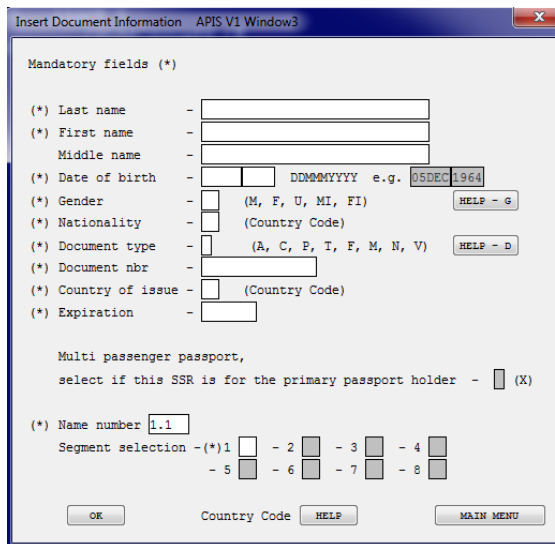

An introductory window will appear. Read the information on it and press any key to continue.

Select the type of APIS SSR you want to enter and click **ENTER**.

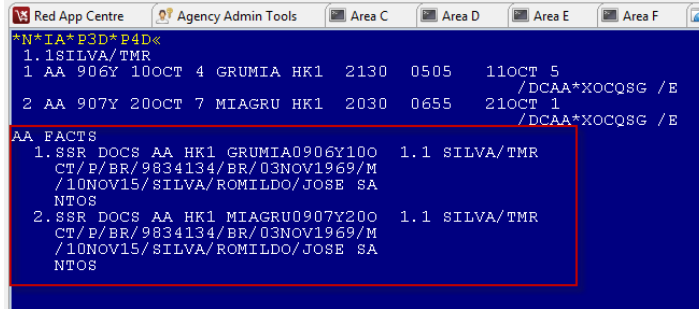

If you selected **DOCS**, this screen will appear. Fill out the requested information and when finished, click **OK**.

TASK

GRAPHIC

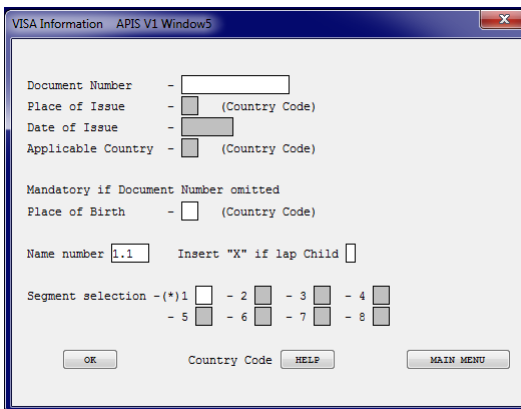

When finished, the system will insert the SSR as shown in the example.

How to validate if a Red App is already installed in my Sabre Red Workspace?

To validate that the user received the application before restarting Sabre Red Workspace, click Help and then History of Updates to look for Red Apps with a Status of Not Yet Activated.

Name	Version	Date	Status
Sabre Red Workspace_3YAB_3333 (Pr...	2.0.0.0000000007	Sep 20, 2012 5:08:29 PM	NOT YET ACTIVATED
Air Routing Mileage Calc	1.0.0.201201161659	Sep 20, 2012 5:08:29 PM	NOT YET ACTIVATED
Calculator	1.0.0.201112201654	Sep 20, 2012 5:08:29 PM	NOT YET ACTIVATED

1. After restarting Sabre Red Workspace, you can also look under **Contact Us – Application Vendor Support** to validate that the application installed successfully.

2. The system will open a new window with all the Red Apps installed.

Should you need to contact the Red App Vendor for support, click on the Red App name to open the **Contact Details**.
