

---

## OVERVIEW

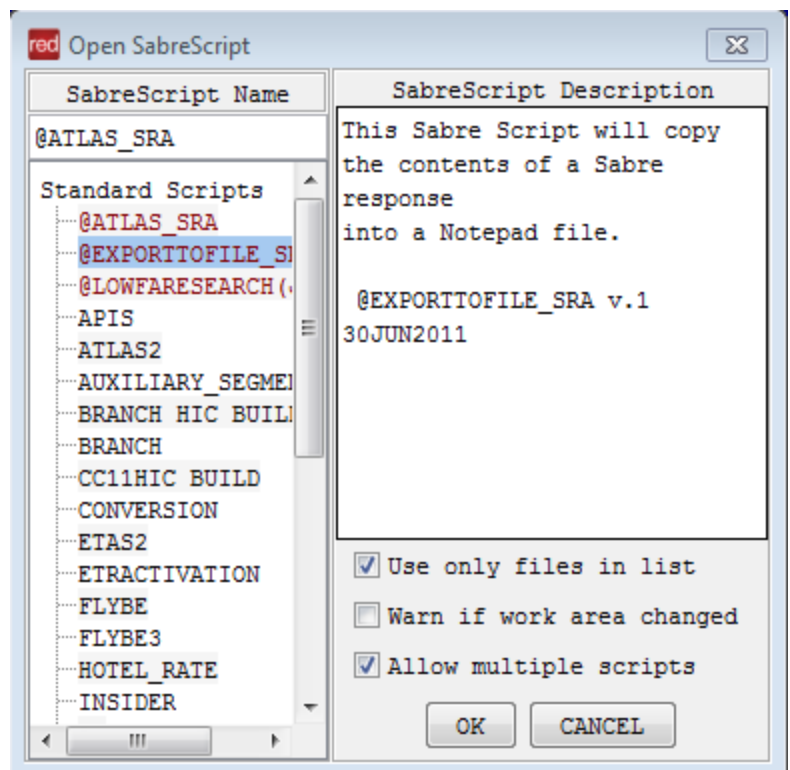

---

**Export to File** allows you to copy the contents of a Sabre response into a text file with the Export to File Red App.

In order to use **Export to File**, follow these steps:

Press CTRL+ A to open the SabreScript Window

Click **OK** or hit Enter to continue

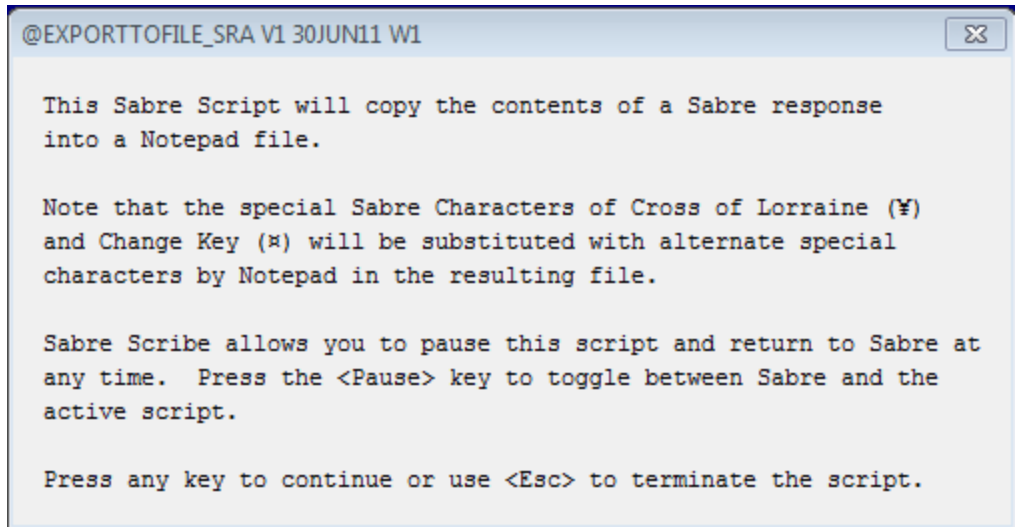

---

**TASK****GRAPHIC**

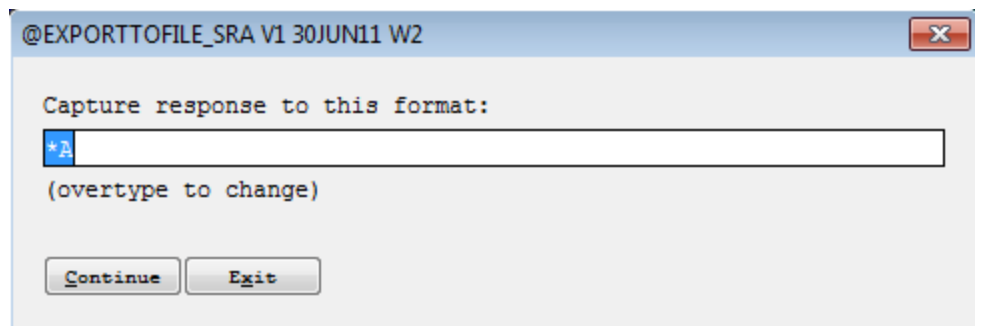

---

The following message will appear

Hit any key to continue

Last format use will be displayed. It can be overwritten. Just hit Enter or click Continue

---

**TASK**

---

---

**GRAPHIC**

---

The file is created with a note and the system response.
