
OVERVIEW

Sign Audit is an application that allows you to read the CST (City Sign Table) of the **current PCC** and export it to a file on your local 'C:\' drive.

TASK**GRAPHIC**

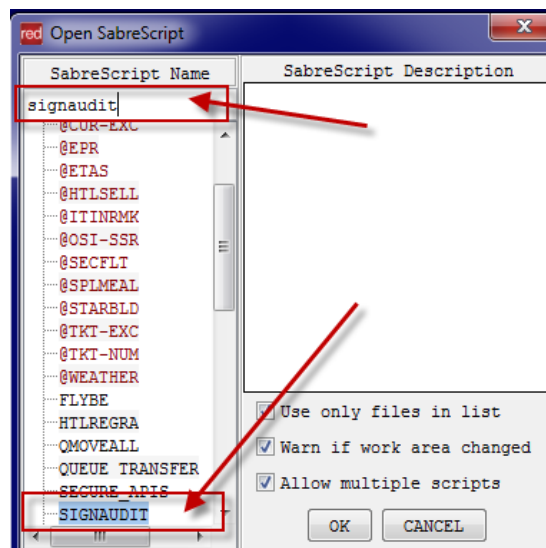

In order to use **Sign Audit**, follow these steps:

Press CTRL + A to open the SabreScript Window

Type the SabreScript Name or use the scroll down bar until you find the script name **SignAudit**.

Click **OK** to launch it.

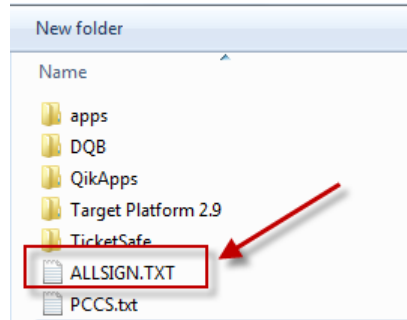

TASK

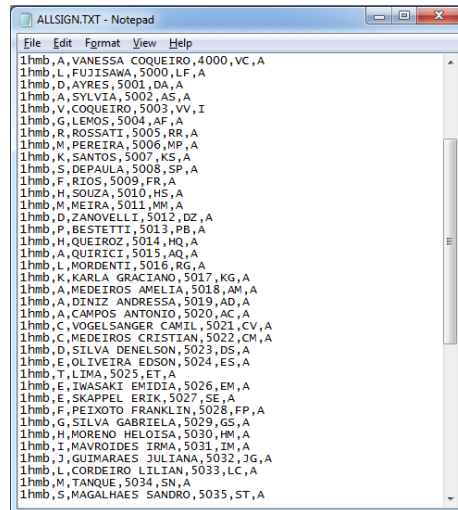

GRAPHIC

The system will start running and processing the signatures. When finished, a file will be placed on your C: drive similar to this.

A file named **ALLSIGN.TXT** will be created in notepad format.

Example of a file.

How to validate if a Red App is already installed in my Sabre Red Workspace?

To validate that the user received the application before restarting Sabre Red Workspace, click Help and then History of Updates to look for Red Apps with a Status of Not Yet Activated.

Name	Version	Date	Status
Sabre Red Workspace_3YAB_3333 (Pr...	2.0.0.0000000007	Sep 20, 2012 5:08:29 PM	NOT YET ACTIVATED
Air Routing Mileage Calc	1.0.0.201201161659	Sep 20, 2012 5:08:29 PM	NOT YET ACTIVATED
Calculator	1.0.0.201112201654	Sep 20, 2012 5:08:29 PM	NOT YET ACTIVATED

1. After restarting Sabre Red Workspace, you can also look under **Contact Us – Application Vendor Support** to validate that the application installed successfully.

2. The system will open a new window with all the Red Apps installed.

Should you need to contact the Red App Vendor for support, click on the Red App name to open the **Contact Details**.
